

## Supplemental Response to the Requests for Clarification

Paragraph 9 of the of the Agreed Statement of Facts states that at the June 2027 session of COPUOS ASTERIA announced that it had become a State Party to the Liability Convention as from 1 June 2027. Paragraph 19 states that "PROCLIVIA is a party to all five UN space treaties, while ASTERIA has only signed (but not ratified), in the wake of its independence in 1978, the Outer Space Treaty."

The original requests for clarification asked to confirm that ASTERIA was a party to the Liability Convention and the responses (Number 5) declined further clarification. In order to avoid unnecessary confusion in this regard, the following supplemental clarification is issued:

“ASTERIA deposited its instrument of accession to the Liability Convention on 1 June 2027”
